BY AUTHOR

Arnold, David
Air Conditioning in Office Buildings After World War II. P. 33. July.
Evolution of Modern Office Buildings and Air Conditioning. P. 40. June.

Baird, Jim
Three 'Immutable Laws' of Central Chiller-Plant Control. P. 31. November.

Banks, Paul N.
What Makes Records Deteriorate. P. 71. Practical Guide. April.

Bernier, Michel A.
Pumping Energy and Variable Frequency Drives. P. 37. December.

Bhatti, Mohinder S.
Riding in Comfort, Part I: Evolution of Automotive Heating. P. 51. August.
Riding in Comfort, Part II: Evolution of Automotive Air Conditioning. P. 44. September.

Bodinus, William S.
Rise and Fall of Carbon Dioxide System, The. P. 37. April.

Boffardi, Bennett P.
Water Treatment for HVAC&R Systems. P. 52. Practical Guide. May.

Bourret, Bernard
Pumping Energy and Variable Frequency Drives. P. 37. December.

Brownell, Kyle A.
Refrigeration Systems Malfunctions. P. 40. February.

Butchko, Lanty K.
Civic Center Retrofit. P. 50. December.

Bynum, Harris
Variable Flow—A Contrc! Engineer's Perspective. P. 26. January.

Cadena, Javier Alvarez de la
HVAC for Mexican Showpiece. P. S7. July.

Callaway, Cynthia A.
Civic Center Retrofit. P. 50. December.

Cartwright, Peter S.
Water Purification. P. 69. Practical Guide. May.

Chamberlin, Glen A.
VAV Systems and Outdoor Air. P. 39. October.

Choat, Ernest E.
Resolving Duct Leakage Claims. P. 49. March.

Christianson, Leslie L.
VAV Systems and Outdoor Air. P. 39. October.

Cohen, Martin H.
IAQ in Nursing Homes. P. 34. February.

Colliver, Donald G.
New Weather Data for Energy Calculations. P. 31. March.

Crane, Jonathan T.
Hot Zone Laboratories. P. 28. June.

Czachorski, Marek
Evaluating Active Desiccant Systems for Ventilating Commercial Buildings. P. 28. October.

Davis, Kevin L.
Civic Center Retrofit. P. 50. December.

Dumas, Claude
New Brine System for Skating Rink. P. 63. August.

Duncan, Todd
Back to Basics: The Rotary Screw Compressor. P. 40. May.

Dunnavant, Keith
Evaporative Cooling and TES After Deregulation. P. 31. December.

Ehrlich, Paul
Specifying Interoperability. P. 25. April.

Elovitz, Kenneth M.
Understanding What Humidity Does and Why. P. 84. Practical Guide. April.

Faramarzi, Ramin
Comparing Older and Newer Refrigerated Display Cases. P. 45. August.
Efficient Display Case Refrigeration. P. 46. Practical Guide. November.

Fiorino, Donald P.
Boiler Plant Replacement Reduces Steam Cost 35%. P. 57. September.
Achieving High Chilled-Water Delta Ts. P. 24. November.

Flaniken, Bruce L.
Application of Electric Power in HVAC&R Systems. P. 37. January.

Goodman Jr., Harley W.
ASHRAE in the New Millennium's Global Community. P. 36. August.

Gramlich, Mark
New Developments in Hybrid Natural Gas/Electric Cooling. P. 36. September.

Gregory, Jay S.
Who Should be Responsible for Legionella? P. 62. Practical Guide. May.

Hahn, Michael J.
Fast-Track HVAC Conversion. P. 41. December.

Hahn, Warren G.
Fast-Track HVAC Conversion. P. 41. December.

Harriman, III, Lewis G.
New Weather Data for Energy Calculations. P. 31. March.
Evaluating Active Desiccant Systems for Ventilating Commercial Buildings. P. 28. October.

Hart, K. Quinn
New Weather Data for Energy Calculations. P. 31. March.

Hayter, Sheila J.
Optimizing Building and HVAC Systems. P. 46. December.

House, John M.
On-line Monitoring and Fault Detection. P. 21. July.

Int-Hout, Dan
Air Distribution for Large Spaces. P. 57. Practical Guide. April.

Janczewski, Jolanda N.
Air Quality on Commercial Aircraft. P. 26. September.

Janczewski, Mark G.
Air Quality on Commercial Aircraft. P. 26. September.

Janssen, John E.
The History of Ventilation and Temperature Control. P. 48. October.

Judkoff, Ron
Optimizing Building and HVAC Systems. P. 46. December.

Kemp, Kimberly
Comparing Older and Newer Refrigerated Display Cases. P. 45. August.

Kenny, Thomas M.
Effective Steam Tracing. P. 42. January.

Kestner, Clyde Delmar
HVAC at 18th-Century Colonial Williamsburg. P. 52. Practical Guide. April.

Klein, Sanford A.
Refrigeration Systems Malfunctions. P. 40. February.

Kloostra, Leon
Air Distribution for Large Spaces. P. 57. Practical Guide. April.

Kosar, Douglas R.
Evaluating Active Desiccant Systems for Ventilating Commercial Buildings. P. 28. October.

Kramer, Daniel E.
Why Not Mineral Oil? CFC to HFC Conversion Issues. P. 55. Practical Guide. November.

Kuehn, Janie
Civic Center Retrofit. P. 50. December.

Li, Zhenhai
VAV Systems and Outdoor Air. P. 39. October.

Lowery, Thomas F.
Design Considerations for Motors and Variable Speed Drives. P. 28. February.

Luna, Vladimir
HVAC for Mexican Showpiece. P. S7. July.

Maki, Kevin S.
VAV Systems and Outdoor Air. P. 39. October.

Martin, Paul
CFD in the Real World. P. 20. January.

Mathaudhu, Sukhdev S.
Energy Conservation Showcase. P. 44. April.

Mecklenburg, Marion F.
Temperature and Relative Humidity Effects on the Mechanical and Chemical Stability of Collections. P. 77. Practical Guide. April.

Merwin, Ed
Variable Flow—A Control Engineer's Perspective. P. 26. January.

Monroe, Richard H.
On-line Monitoring and Fault Detection. P. 21. July.

Nagengast, Bernard
A History of Comfort Cooling Using Ice. P. 49. February.
Early Twentieth Century Air-Conditioning Engineering. P. 55. March.

Nichols, Laurier
Direct Contact Water Heater. P. 53. September.

Ninomura, Paul T.
IAQ in Nursing Homes. P. 34. February.

Nowakowski, Gary
New Developments in Hybrid Natural Gas/Electric Cooling. P. 36. September.

Ouellet, Alan E.
Filters and Filtration. P. 65. Practical Guide. April.

Paarporn, Somchai
Runaround Loop Heat Recovery with Dehumidification System. P. 32. June.

Park, Sharon C.
HVAC for Historic Buildings. P. 91. Practical Guide. April.

Pauken, Mike
A History of Air Conditioning in the Home. P. 34. May.

Paulauskis, John A.
Addressing Noise Problems in Screw Chillers. P. 22. June.

Pearson, S. Forbes
Ammonia Refrigeration Systems: Better Ways to Engineer Them. P. 24. March.

Persily, Andrew K.
Myths About Building Envelopes. P. 39. March.

Pierce, W. Mark
Air Quality on Commercial Aircraft. P. 26. September.

Pittel, Offer
Specifying Interoperability. P. 25. April.

Pope, Fielding Leroy
Civic Center Retrofit. P. 50. December.

Puckorius, Paul R.
Water Corrosion Mechanisms. P. 57. Practical Guide. May.

Reid, David S.
Food Preservation. P. 40. Practical Guide. November.

Reindl, Douglas T.
Refrigeration Systems Malfunctions. P. 40. February.

Robinson, Timothy J.
Filters and Filtration. P. 65. Practical Guide. April.

Roethlisberger, Brian
Air Quality on Commercial Aircraft. P. 26. September.

Rosenquist, Gregory
Window-Type Room Air Conditioners. P. 31. January.

Schwenk, Dave M.
VAV Systems and Outdoor Air. P. 39. October.

Scofield, Mike
Evaporative Cooling and TES After Deregulation. P. 31. December.

Seem, John E.
On-line Monitoring and Fault Detection. P. 21. July.

Sherman, Max
Indoor Air Quality for Residential Buildings. P. 26. May.

Smith, Christopher S.
Ventilation in the Commercial Environment. P. 73. October.

Stanke, Dennis
Ventilation Through the Years: A Perspective. P. 40. August.

Torcellini, Paul A.
Optimizing Building and HVAC Systems. P. 46. December.

Tumosa, Charles S.
Temperature and Relative Humidity Effects on the Mechanical and Chemical Stability of Collections. P. 77. Practical Guide. April.

Tweedie, Stephen W.
Geothermal System for Prison. P. 59. August.

Votta, Bruce T.
Technology and Efficiency at Historic Hotel. P. 28. July.

Wheeler, Arthur E.
View of IAQ as the Century Closes, A. P. 35. November.

Wilkinson, Ronald J.
Commissioning Design Intent Narrative, The. P. 31. April.

Witte, Michael J.
Evaluating Active Desiccant Systems for Ventilating Commercial Buildings. P. 28. October.

Air Conditioning

Air Conditioning in Office Buildings After World War II. David Arnold. P. 33. July.

Air Distribution for Large Spaces. Dan Int-Hout. Leon Kloostra. P. 57. Practical Guide. April.

Application of Electric Power in HVAC&R Systems. Bruce L. Flaniken. P. 37. January.

CFD in the Real World. Paul Martin. P. 20. January.

Early Twentieth Century Air-Conditioning Engineering. Bernard Nagengast. P. 55. March.

Evaporative Cooling and TES After Deregulation. Mike Scofield, Keith Dunnavant. P. 31. December.

Evolution of Modern Office Buildings and Air Conditioning. David Arnold. P. 40. June.

Fast-Track HVAC Conversion. Warren G. Hahn, Michael J. Hahn. P. 41. December.

Filters and Filtration. Timothy J. Robinson. Alan E. Ouellet. P. 65. Practical Guide. April.

History of Air Conditioning in the Home, A. Mike Pauken. P. 34. May.

History of Comfort Cooling Using Ice, A. Bernard Nagengast. P. 49. February.

HVAC at 18th-Century Colonial Williamsburg. Clyde Delmar Kestner. P. 52. Practical Guide. April.

HVAC for Historic Buildings. Sharon C. Park. Practical Guide. P. 91. April.

HVAC for Mexican Showpiece. Vladimir Luna and Javier Alvarez de la Cadena. P. S7. July.

New Developments in Hybrid Natural Gas/Electric Cooling. Gary Nowakowski, Mark Gramlich. P. 36. September.

New Weather Data for Energy Calculations. Lewis G. Harriman, III, Donald G. Colliver, K. Quinn Hart. P. 31. March.

Riding in Comfort, Part II: Evolution of Automotive Air Conditioning. Mohinder S. Bhatti. P. 44. September.

Variable Flow—A Control Engineer's Perspective. Harris Bynum, Ed Merwin. P. 26. January.

Window-Type Room Air Conditioners. Gregory Rosenquist. P. 31. January.

Airtightness

Myths About Building Envelopes. Andrew K. Persily. P. 39. March.

Building Management

Specifying Interoperability. Paul Ehrlich. Offer Pittel. P. 25. April.

Chillers

Achieving High Chilled-Water Delta Ts. Donald P. Fiorino. P. 24. November.

Addressing Noise Problems in Screw Chillers. John A. Paulauskis. P. 22. June.

Civic Center Retrofit. Cynthia Callaway, et al. P. 50. December.

New Brine System for Skating Rink. Claude Dumas. P. 63. August.

New Developments in Hybrid Natural Gas/Electric Cooling. Gary Nowakowski, Mark Gramlich. P. 36. September.

Three 'Immutable Laws' of Central Chiller-Plant Control. Jim Baird. P. 31. November.

Commissioning

Commissioning Design Intent Narrative, The. Ronald J. Wilkinson. P. 31. April.

Controls

HVAC for Mexican Showpiece. Vladimir Luna and Javier Alvarez de la Cadena. P. S7. July.

Dehumidification

Evaluating Active Desiccant Systems for Ventilating Commercial Buildings. Lewis G. Harriman III, Michael J. Witte, Ph.D., Marek Czachorski and Douglas R. Kosar. P. 28. October.

Runaround Loop Heat Recovery with Dehumidification System. Somchai Paarporn. P. 32. June.

Ventilation in the Commercial Environment. Christopher S. Smith. P. 73. October.

Energy Conservation

Achieving High Chilled-Water Delta Ts. Donald P. Fiorino. P. 24. November.

Boiler Plant Replacement Reduces Steam Cost 35%. Donald P. Fiorino. P. 57. September.

Civic Center Retrofit. Cynthia Callaway, et al. P. 50. December.

Direct Contact Water Heater. Laurier Nichols. P. 53. September.

INDEX OF 1999 FEATURE ARTICLES

Energy Conservation Showcase. Sukhdev S. Mathaudhu. P. 44. April.

Evaporative Cooling and TES After Deregulation. Mike Scofield, Keith Dunnavant. P. 31. December.

Geothermal System for Prison. Stephen W. Tweedie. P. 59. August.

New Developments in Hybrid Natural Gas/Electric Cooling. Gary Nowakowski, Mark Gramlich. P. 36. September.

Optimizing Building and HVAC Systems. Sheila J. Hayter, Paul A. Torcellini, Ron Judkoff. P. 46. December.

Runaround Loop Heat Recovery with Dehumidification System. Somchai Paarporn. P. 32. June.

Technology and Efficiency at Historic Hotel. Bruce T. Votta. P. 28. July.

Ventilation in the Commercial Environment. Christopher S. Smith. P. 73. October.

First Century of Air Conditioning

Air Conditioning in Office Buildings After World War II. David Arnold. P. 33. July.

Application of Electric Power in HVAC&R Systems. Bruce L. Flaniken. P. 37. January.

Early Twentieth Century Air-Conditioning Engineering. Bernard Nagengast. P. 55. March.

Evolution of Modern Office Buildings and Air Conditioning. David Arnold. P. 40. June.

History of Air Conditioning in the Home, A. Mike Pauken. P. 34. May.

History of Comfort Cooling Using Ice, A. Bernard Nagengast. P. 49. February.

History of Ventilation and Temperature Control, The. John E. Janssen. P. 48. October.

Riding in Comfort, Part I: Evolution of Automotive Heating. Mohinder S. Bhatti. P. 51. August.

Riding in Comfort, Part II: Evolution of Automotive Air Conditioning. Mohinder S. Bhatti. P. 44. September.

Rise and Fall of Carbon Dioxide Systems, The. William S. Bodinus. P. 37. April.

View of IAQ as the Century Closes, A. Arthur E. Wheeler. P. 35. November.

Geothermal

Geothermal System for Prison. Stephen W. Tweedie. P. 59. August.

Heating

Application of Electric Power in HVAC&R Systems. Bruce L. Flaniken. P. 37. January.

Boiler Plant Replacement Reduces Steam Cost 35%. Donald P. Fiorino. P. 57. September.

CFD in the Real World. Paul Martin. P. 20. January.

Direct Contact Water Heater. Laurier Nichols. P. 53. September.

Early Twentieth Century Air-Conditioning Engineering. Bernard Nagengast. P. 55. March.

HVAC at 18th-Century Colonial Williamsburg. Clyde Delmar Kestner. P. 52. Practical Guide. April.

HVAC for Historic Buildings. Sharon C. Park. Practical Guide. P. 91. April.

Riding in Comfort, Part I: Evolution of Automotive Heating. Mohinder S. Bhatti. P. 51. August.

Runaround Loop Heat Recovery with Dehumidification System. Somchai Paarporn. P. 32. June.

Variable Flow—A Control Engineer's Perspective. Harris Bynum, Ed Merwin. P. 26. January.

Historic Buildings

Air Distribution for Large Spaces. Dan Int-Hout. Leon Kloostra. P. 57. Practical Guide. April.

Filters and Filtration. Timothy J. Robinson. Alan E. Ouellet. P. 65. Practical Guide. April.

HVAC at 18th-Century Colonial Williamsburg. Clyde Delmar Kestner. P. 52. Practical Guide. April.

HVAC for Historic Buildings. Sharon C. Park. Practical Guide. P. 91. April.

Humidity

Evaporative Cooling and TES After Deregulation. Mike Scofield, Keith Dunnavant. P. 31. December.

Temperature and Relative Humidity Effects on the Mechanical and Chemical Stability of Collections. Marion F. Mecklenburg, Charles S. Tumosa. P. 77. Practical Guide. April.

Understanding What Humidity Does and Why. Kenneth M. Elovitz. P. 84. Practical Guide. April.

What Makes Records Deteriorate. Paul N. Banks. P. 71. Practical Guide. April.

Indoor Air Quality

Air Quality on Commercial Aircraft. W. Mark Pierce, Jolanda Janczewski, Brian Roethlisberger, Mark G. Janczewski. P. 26. September.

Energy Conservation Showcase. Sukhdev S. Mathaudhu. P. 44. April.

IAQ in Nursing Homes. Paul T. Ninomura, Martin H. Cohen. P. 34. February.

Indoor Air Quality for Residential Buildings. Max Sherman. P. 26. May.

History of Ventilation and Temperature Control, The. John E. Janssen. P. 48. October.

VAV Systems and Outdoor Air. Glen A. Chamberlin, Kevin S. Maki, Zhenhai Li, Dave M. Schwenk, and Leslie L. Christianson, Ph.D., P.E. P. 39. October.

View of IAQ as the Century Closes, A. Arthur E. Wheeler. P. 35. November.

Ventilation Through the Years: A Perspective. Dennis Stanke. P. 40. August.

Laboratories

Hot Zone Laboratories. Jonathan T. Crane. P. 28. June.

Legionella

Who Should be Responsible for Legionella? Jay S. Gregory. P. 62. Practical Guide. May.

Motors

Design Considerations for Motors and Variable Speed Drives. Thomas F. Lowery. Feb. P. 28. February.

Noise

Addressing Noise Problems in Screw Chillers. John A. Paulauskis. P. 22. June.

Operations and Maintenance

Commissioning Design Intent Narrative, The. Ronald J. Wilkinson. P. 31. April.

Pumps

Pumping Energy and Variable Frequency Drives. Michel A. Bernier, Bernard Bourret. P. 37. December.

Refrigerants

Why Not Mineral Oil? CFC to HFC Conversion Issues. Daniel E. Kramer. P. 55. Practical Guide. November.

Refrigeration

Addressing Noise Problems in Screw Chillers. John A. Paulauskis. P. 22. June.

Ammonia Refrigeration Systems: Better Ways to Engineer Them. S. Forbes Pearson. P. 24. March.

Comparing Older and Newer Refrigerated Display Cases. Ramin Faramarzi, Kimberly Kemp. P. 45. August.

Efficient Display Case Refrigeration. Ramin Faramarzi. P. 46. Practical Guide. November.

Food Preservation. David S. Reid. P. 40. Practical Guide. November.

History of Comfort Cooling Using Ice, A. Bernard Nagengast. P. 49. February.

Refrigeration Systems Malfunctions. Kyle A. Brownell, Sanford A. Klein, Douglas T. Reindl. P. 40. February.

Rise and Fall of Carbon Dioxide Systems, The. William S. Bodinus. P. 37. April.

Why Not Mineral Oil? CFC to HFC Conversion Issues. Daniel E. Kramer. P. 55. Practical Guide. November.

Standards

Indoor Air Quality for Residential Buildings. Max Sherman. P. 26. May.

View of IAQ as the Century Closes, A. Arthur E. Wheeler. P. 35. November.

Ventilation Through the Years: A Perspective. Dennis Stanke. P. 40. August.

Steam

Effective Steam Tracing. Thomas M. Kenny. P. 42. January.

Tech Award

Boiler Plant Replacement Reduces Steam Cost 35%. Donald P. Fiorino. P. 57. September.

Civic Center Retrofit. Cynthia Callaway, et al. P. 50. December.

Direct Contact Water Heater. Laurier Nichols. P. 53. September.

Energy Conservation Showcase. Sukhdev S. Mathaudhu. P. 44. April.

Geothermal System for Prison. Stephen W. Tweedie. P. 59. August.

New Brine System for Skating Rink. Claude Dumas. P. 63. August.

Optimizing Building and HVAC Systems. Sheila J. Hayter, Paul A. Torcellini, Ron Judkoff. P. 46. December.

Technology and Efficiency at Historic Hotel. Bruce T. Votta. P. 28. July.

Ventilation in the Commercial Environment. Christopher S. Smith. P. 73. October.

Thermal Storage

Energy Conservation Showcase. Sukhdev S. Mathaudhu. P. 44. April.

Variable Speed Drives

Design Considerations for Motors and Variable Speed Drives. Thomas F. Lowery. Feb. P. 28. February.

Pumping Energy and Variable Frequency Drives. Michel A. Bernier, Bernard Bourret. P. 37. December.

Variable Volume Air Conditioning

VAV Systems and Outdoor Air. Glen A. Chamberlin, Kevin S. Maki, Zhenhai Li, Dave M. Schwenk, and Leslie L. Christianson, Ph.D., P.E. P. 39. October.

Ventilation

Air Conditioning in Office Buildings After World War II. David Arnold. P. 33. July.

Air Distribution for Large Spaces. Dan Int-Hout. Leon Kloostra. P. 57. Practical Guide. April.

Air Quality on Commercial Aircraft. W. Mark Pierce, Jolanda Janczewski, Brian Roethlisberger, Mark G. Janczewski. P. 26. September.

Ventilation Through the Years: A Perspective. Dennis Stanke. P. 40. August.

View of IAQ as the Century Closes, A. Arthur E. Wheeler. P. 35. November.

Water Treatment

Water Corrosion Mechanisms. Paul R. Puckorius. P. 57. Practical Guide. May.

Water Purification. Peter S. Cartwright. P. 69. Practical Guide. May.

Water Treatment for HVAC&R Systems. Bennett P. Boffardi. P. 52. Practical Guide. May.

Who Should be Responsible for Legionella? Jay S. Gregory. P. 62. Practical Guide. May.

Weather Data

New Weather Data for Energy Calculations. Lewis G. Harriman, III, Donald G. Colliver, K. Quinn Hart. P. 31. March. ■

The quality of Donco Linear Slot diffusers is clear.

When it comes to choosing air diffusers, Donco is the clear choice. That's because we do what it takes to produce consistently high quality surface mount and tee bar lay-in linear slot diffusers everyday. With our skilled work force, quality materials and reliable delivery, you'll be breathing easier in no time. Call Donco today and experience a little clear thinking.

DONCO AIR PRODUCTS

A BREATH OF FRESH AIR
